Separate Custom Graphic OK

Separate Map, PNG file format. We keep a safe zone –make large, we will resize. LobbyPOP Pro swaps this any time tenants change. A “You are Here” icon can be included.

Provide Excel file. We build presentation list for Directory Listings. May have other columns, etc.

Example #2 – full, background. One per “slide” layout.

Centre Directory

Create a single PNG background image that matches height and width of display.
Top = Title.
Section 2 = Map
Section 3 = Background Only (List to be placed here. See next example.)
Section #4 is optional. All within a ‘safe zone’ at borders ~ 30 px each edge. LobbyPOP agency team can create all of these parts. You simply supply PNG map.
